

April is National Safe Digging Month...
Always Call Alabama 811 Before You Dig, it's the law!

WBNQ would like to remind you to Always Call Before You Dig. Whether your project is large or small, Alabama 811 is ready to take your call to ensure all underground utilities are marked before any work begins. Alabama 811 is a free service to both contractors and consumers, and it is a law in Alabama that you *Call Before You Dig*.
